

a protectant and moisturizer;

a neutralizer including triethanolamine;

a chelator including trisodium EDTA;

a preservative including methyl paraben, propylparaben and diasolidinyl
urea; and

a diluent.

A facial skin cleansing and conditioning composition consisting essentially of:

a mild skin abrasive including corundum powder of substantially uniform size
and shape having a purity of at least 99% and a size of about 120
FEPA;

an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE and
polysorbate 20;

an emollient including mineral oil and cocoa butter (theobroma cacao);

a protectant and moisturizer including aloe vera (aloe barbadensis);

a neutralizer including triethanolamine;

a chelator including trisodium EDTA;

a preservative including methyl paraben, propylparaben and diasolidinyl
urea;

a diluent; and

an antioxidant including vitamin E.

A facial skin cleansing and conditioning composition consisting essentially of:
